**State USF**

Most states have programs to support universal telephone service by subsidizing service in rural or high cost areas. Qwest will bill the State USF charges associated with specific services purchased by a customer.

**State Utility Commission Fees**

State regulatory agencies frequently fund their operations through a fee to be passed on to customers in that state. The amount and nature of the fee will vary by state.

## APPENDIX G – EXPLANATION OF FEES, SURCHARGES, & TAXES, AND HOW THEY WILL BE CALCULATED

**Vendors may either enter the explanation of their fees, surcharges, and taxes, and how they are calculated here, or attach them as Appendix G to their proposal.**

Some of the taxes and charges that may apply are as follows (please note that this list is *not* comprehensive):

**Federal Excise Tax (FET)**

FET is a federal tax on local exchange access lines.

**Sales Tax**

Sales tax typically is imposed directly on the customer based on the specific services purchased. The tax appears at various jurisdictional levels, state, city, county, etc.

**Franchise Charges**

Franchise taxes are imposed by local jurisdictions to allow Qwest to operate in their right of way. This franchise fees generally are based on a percentage of service charges and Qwest passes on this charge to the extent associated with a specific service.

**Occupation & Utility Occupation Taxes**

Occupation taxes are imposed on specific types of business activities, based on business conducted within the jurisdiction as a percent of the price of specific services.

**Gross Receipts Taxes**

Gross receipts taxes are imposed on the seller instead of the buyer as a percent of the sales price. These taxes are passed through to customers purchasing services generating the tax.

**911**

Charges are imposed either on a per access line or percentage of service charge basis to fund a jurisdiction's provision of 911 emergency answering center services.

**TRS, TDD, CIA (Telecommunications Relay Service, Telecommunications Devices for the Deaf, Communications Impaired Act)**

While the name may vary, federal and state governments impose charges to provide funding for telecommunication services for the hearing or speech impaired.

**TAP (Telephone Assistance Plan, Low Income Assistance Plan, LifeLine)**

While the name varies, many states impose separate fees to provide telecommunications services for low-income households. Specific administrative details of these programs vary by state.

**Federal USF**

The Federal Universal Service Fund is a charge established by the Federal Communications Commissions to fund cost of service subsidies for telephone service in rural and high cost service areas as well as specific programs for internet access for schools and libraries and certain other programs. FUSF is billed to customers on most services under the jurisdiction of the FCC. The rate is adjusted quarterly to conform to the current FCC established rate. For further details on the FUSF, please visit the FCC web site at www.fcc.gov.

## APPENDIX D

**The Mandatory Cost Proposal is attached to this solicitation as a excel eFile. Reference attached eFile DoP00_RFP02352_MandatoryCostProposal.**

## 6. (M) MANDATORY COST PROPOSAL AND SERVICE ORDER INSTALLATION SCHEDULE

6.1 **(E)** The vendor must use the IPRO/Sicommnet attached Mandatory Cost Proposal eFile for providing pricing and the service order installation schedule (Appendix D). Pricing for the Initial Term of the Agreement must be Firm/Fixed with no allowance for price modification.

6.2 The vendor must provide a fully-burdened rate which must include, **but not limited to**, all operating and personnel expenses, such as: overhead, salaries, profit, supplies, travel, and quality improvement.

6.3 Pricing will be evaluated using a cost model that offers the State the best possible value over the initial term of the contract.

6.4 Vendors must submit the cost for ALL recurring and non-recurring charges the State could incur for the services described in this solicitation. Vendors should add "Other" rows or columns when additional services, options, features, discounts or charges need to be included.

6.5 Vendor's submissions must clearly outline their monthly recurring; line, internetworking, ISDN PRI or DSS circuit, or NAR costs and any other common equipment or networking facilities as well as any installation, move or cancellation/disconnect costs.

6.6 Vendors that intend to charge Universal Service Fund (USF), Federal or State Subscriber Line Charges (SLC), Local Number Portability (LNP), Presubscribed Interexchange Carrier Charge (PICC), per call surcharges, usage, or call set-up fees, or any other taxes, surcharges or regulatory fee's, must include such in their bid response. The vendor must describe every tax, surcharge and any other fee and how it will be calculated and applied to their monthly billing (see 5.5.8). These are to be attached to the proposal as Appendix G. These charges must be listed in their Cost Proposal(s) for the service or services they are bidding.

➔ ***Response:***

Unless otherwise specifically stated, Qwest prices are quoted exclusive of applicable taxes and fees. Any taxes or fees provided (if any) are a good-faith estimate only and provided for informational purposes only. The Qwest invoices will reflect the amount of any applicable taxes and other fees due.

Qwest passes through USF surcharges in a uniform manner to its customers that purchase certain eligible services from Qwest. The USF surcharge is established by the FCC on a quarterly basis. Qwest does not charge an additional USF administrative fee but will not agree to waive the charge in its entirety unless provided a valid tax exemption.

6.7 Vendors should also complete the Service Order Installation Schedule (Appendix E) for each service they intend to offer in their bid. The State is seeking the number of business days required to complete the installation, change or move for services and features bid.

CONTRACTORS ARE NOT ALLOWED TO DIRECT BILL EXPENSES OR TO RECEIVE ADVANCE PAYMENTS FOR SERVICES NOT RENDERED.

➔ ***Response:***

Qwest has read and understands. Please see the completed Appendix E.

*Market Expansion Lines (MEL) are $22 per month, plus $0.096 per call in Southern Idaho. MEL lines are $22 per month, plus $0.04 for the first minute and $0.015 for each additional minute in Northern Idaho.

**If the State requires optional line features (i.e. hunting, caller ID, call forwarding, etc.) then Qwest can include up to three of these features for $1.00 additional (total of $23.99 for Qwest Choice Business Prime). The line must remain installed for a minimum of three years, otherwise, termination charges may apply.

The Monthly Line Charge of $21.68 is available in all Qwest wirecenters within the State of Idaho.

**Qwest will review the State of Idaho's installed Primary Rate ISDN service twelve (12) months after the award of this RFP. At that time, if 90% or more of the State of Idaho's Boise Metro (i.e. Boise Main, Boise West, Nampa, Caldwell, Eagle, and Meridian) Primary Rate ISDN Service is provided by Qwest, then Qwest will reduce the Monthly Line Charge for the State of Idaho's Centrex service by $1.00 (either $15.50 and/or $20.68). This will be a one time review after which the Centrex rates will remain in effect for the term of the contract.

Implementation charges would only apply if the State orders a new Centrex or Business Line service. Customers migrating to a new Centrex Prime would be charged all applicable non-recurring charges to establish Centrex services and lines with one exception. The non-recurring line charge would be waived for any existing analog lines. Non-recurring charges may apply for optional features.
