#### HOURLY LABOR

All EMERGENCY hourly labor rates include the following:

- All labor charges (including installation of valve stems, etc.)
- Flat repair (including standard patch and cement)
- Mounts and dismounts (including inside duals)

Charges for additional materials may be assessed at DSP, such as:

- Valve hardware
- Studs
- Tubes/flaps/etc.

All Monday - Friday hourly labor requires a one-hour minimum and will be billed in 15 minute increments thereafter. All after hours and Sunday & holiday service rates require a two-hour minimum and will be billed in 15-minute increments thereafter.

All hourly labor rate charges are "portal to portal," based on the servicing dealer traveling to the service site, time spent completing the service, and returning to the "original start or shop location" or at the completion of service and the commencement of travel to a new service event.

#### MILEAGE FEE / FUEL SURCHARGE POLICY FOR DELIVERIES AND NON-EMERGENCY SERVICE

With customer approval, mileage fees or fuel surcharges may be assessed on round trip new tire and retread deliveries and travel to perform non-emergency service work. These rates should be negotiated between the BATO servicing dealer and each customer location. The name, title and phone number of the authorized person who approved the fuel-related charges must be submitted on the delivery receipt (DR).

#### MILEAGE FEE POLICY FOR EMERGENCY SERVICE

Each emergency service call is subject to a mileage fee billed at the service provider's discretion. The mileage fee should be fair and based on the additional fuel-related cost of the service call. A fuel surcharge is not allowed for emergency service.

The following Emergency Service rates apply to National Account, National Fleet Program, and ERS customers.

**NOTE: Emergency rate covers all labor charges, flat repairs, and mounts/dismounts, including inside duals.**

\* All other emergency mechanical service and products are at DSP.
