Issues of interpretation and eligibility for participation are solely within the authority of the State Chief Procurement Official.

3. **Individual Customer:** Each ordering agency ("Purchasing Entity") that places an order under this PADD will be treated as if it is an individual customer. Except to the extent modified by this PADD, each Purchasing Entity will be responsible to follow the terms and conditions of the Master Agreement and this PADD; and will have the same rights and responsibilities for its purchases as the Lead State has in the Master Agreement. Each Purchasing Entity will be responsible for its own charges, fees, and liabilities; and will have the same rights to any indemnity or to recover any costs allowed in the Master Agreement for its individual purchases. Additionally, the Division of Purchasing is entering into this PADD for the convenience of Purchasing Entities, and the Division of Purchasing bears no responsibility for any agreements to which Purchasing Entities agree. It shall be the responsibility of Purchasing Entities to seek their own agencies’ legal counsel prior to agreeing to the terms of any end user license agreements.

4. **Term:** The term of this PADD will be effective upon execution by the parties and continue through May 21, 2019, unless extended, renewed or terminated earlier.
5. **Participating State Modifications or Additions to Master Agreement**: The following modifications or additions apply only to actions and relationships within the Participating State and supplement and/or add to the Master Agreement ("Contract").

a. **Parties.** The parties to this PADD are Transcription Outsourcing, LLC ("Contractor") and the State of Idaho by and through its statutory agent, the Division of Purchasing within the Department of Administration ("State") on behalf of the entities identified in the paragraph titled "Scope" of this PADD (Purchasing Entities).

b. **Reporting.** The Contractor shall provide:

   i. Any reports specifically required by the Master Agreement to be reported to Participating States.

   ii. At the Division of Purchasing’s request, custom reports, which may include, but not be limited to, reporting on the most common items purchased; comparisons between Purchasing Entities; reports to aid Purchasing Entities in inventory control; and reports that identify delivery times per order. Contractor will provide custom reports in Excel format as requested by the Division of Purchasing, on an occasional basis (no more frequently than four (4) times per contract year), at no additional charge.

c. **Idaho Administrative Fee and Quarterly Usage Report.** A one and one-quarter percent (1.25%) Administrative Fee will apply to all purchases made under the resulting PADD by any state or public agency in Idaho, the State of Idaho understands and agrees that Contractor will raise the Master Agreement prices by this amount. On a quarterly basis, the Contractor must remit to the State of Idaho an amount equal to one and one-quarter percent (1.25%) of the Contractor’s net (sales minus credits) quarterly sales made under the PADD. Administrative Fee payments and reports to the State of Idaho are due no later than thirty (30) calendar days after the end of each calendar quarter. Notwithstanding the adjustment, all pricing updates and other terms and conditions of pricing shall be as set forth in the Alaska Master Agreement #170007304).

**State of Idaho Reporting Time Line:**

1st Quarter: July 1 – September 30
2nd Quarter: October 1 – December 31
3rd Quarter: January 1 – March 31
4th Quarter: April 1 – June 30

**Report of Contract Purchases:**
Quarterly reports must accompany each Administrative Fee payment; and be furnished electronically in Microsoft Excel format. These reports will include the names of the accounts corresponding to the account numbers. For each account number, you must provide a listing of all items purchased during the prior quarter indicating the item # and description, the quantity delivered, the delivery destination, the date of delivery, the unit prices, and the total
d. **Restrictions.** Purchases under this PADD are restricted to purchases of transcription services offered by the Contractor and are listed on the Master Agreement Pricing Sheet provided to and accepted by the State of Idaho. The Master Agreement Pricing Sheet may be changed during the term of the PADD via mutual, written agreement between the parties as part of an amendment to this PADD.

e. **Governing Law.** The State of Idaho's PADD and all purchase orders issued thereunder by Purchasing Entities shall be construed in accordance with, and governed by the laws of the State of Idaho, and the parties hereto consent to the jurisdiction and exclusive venue of the state courts of Ada County in the State of Idaho in the event of any dispute with respect to the PADD. In the event any term of this PADD is held to be invalid or unenforceable by a court, the remaining terms of this PADD will remain in full force and effect. Except to the extent the provisions of the PADD are clearly inconsistent therewith, the PADD shall also be governed by the applicable provisions of the Idaho Uniform Commercial Code (IUCC).

f. **Assignment.** Contractor shall not assign this PADD, or its rights, obligations, or any other interest arising from this PADD, or delegate any of its performance obligations, without the express written consent of the Administrator of the Division of Purchasing. (I.C. § 67-9230).

Notwithstanding the foregoing, to the extent required by applicable law (including I.C. § 28-9-406), Contractor may assign its right to payment on an account provided that the State shall have no obligation to make payment to an assignee until thirty days after Contractor (not the assignee) has provided the responsible procurement officer with (a) proof of the assignment, (b) the identity of the specific state contract to which the assignment applies, and (c) the name of the assignee and the exact address to which assigned payments should be made. The state may treat violation of the clause as an event of default.
g. **Amendments.** Amendments to the Master Agreement (including, but not limited to extensions, renewals, and modifications to the terms, conditions and pricing) will automatically be incorporated in this PADD unless the State of Idaho elects not to incorporate an amendment by providing written notification to Contractor; which notice must be provided within ten (10) business days of the date of the amendment to the Master Agreement, in order to be effective. Failure to provide notice in accordance with this Section 5.g will result in the Master Agreement amendment automatically being incorporated in this PADD.

Appendix A  

GENERAL PROVISIONS

Article 1. Definitions.

1.1 In this contract and appendices, "Project Director" or "Agency Head" or "Procurement Officer" means the person who signs this contract on behalf of the Requesting Agency and includes a successor or authorized representative.

1.2 "State Contracting Agency" means the department for which this contract is to be performed and for which the Commissioner or Authorized Designee acted in signing this contract.

Article 2. Inspections and Reports.

2.1 The department may inspect, in the manner and at reasonable times it considers appropriate, all the contractor’s facilities and activities under this contract.

2.2 The contractor shall make progress and other reports in the manner and at the times the department reasonably requires.

Article 3. Disputes.

3.1 If the contractor has a claim arising in connection with the contract that it cannot resolve with the State by mutual agreement, it shall pursue the claim, if at all, in accordance with the provisions of AS 36.30.620 – 632.

4.1 The contractor may not discriminate against any employee or applicant for employment because of race, religion, color, national origin, or because of age, disability, sex, marital status, pregnancy or parenthood when the reasonable demands of the position(s) do not require distinction on the basis of age, disability, sex, marital status, pregnancy, or parenthood. The contractor shall take affirmative action to insure that the applicants are considered for employment and that employees are treated during employment without unlawful regard to their race, color, religion, national origin, ancestry, disability, age, sex, marital status, changes in marital status, pregnancy or parenthood. This action must include, but need not be limited to, the following: employment, upgrading, demotion, transfer, recruitment or recruitment advertising, layoff or termination, rates of pay or other forms of compensation, and selection for training including apprenticeship. The contractor shall post in conspicuous places, available to employees and applicants for employment, notices setting out the provisions of this paragraph.

4.2 The contractor shall state, in all solicitations or advertisements for employees to work on State of Alaska contract jobs, that it is an equal opportunity employer and that all qualified applicants will receive consideration for employment without regard to race, religion, color, national origin, age, disability, sex, marital status, changes in marital status, pregnancy or parenthood.

4.3 The contractor shall send to each labor union or representative of workers with which the contractor has a collective bargaining agreement or other contract or understanding a notice advising the labor union or workers' compensation representative of the contractor's commitments under this article and post copies of the notice in conspicuous places available to all employees and applicants for employment.

4.4 The contractor shall include the provisions of this article in every contract, and shall require the inclusion of these provisions in every contract entered into by any of its subcontractors, so that those provisions will be binding upon each subcontractor. For the purpose of including those provisions in any contract or subcontract, as required by this contract, "contractor" and "subcontractor" may be changed to reflect appropriately the name or designation of the parties of the contract or subcontract.

4.5 The contractor shall cooperate fully with State efforts which seek to deal with the problem of unlawful discrimination, and with all other State efforts to guarantee fair employment practices under this
contract, and promptly comply with all requests and directions from the State Commission for Human Rights or any of its officers or agents relating to prevention of discriminatory employment practices.

4.6 Full cooperation in paragraph 4.5 includes, but is not limited to, being a witness in any proceeding involving questions of unlawful discrimination if that is requested by any official or agency of the State of Alaska; permitting employees of the contractor to be witnesses or complainants in any proceeding involving questions of unlawful discrimination, if that is requested by any official or agency of the State of Alaska; participating in meetings; submitting periodic reports on the equal employment aspects of present and future employment; assisting inspection of the contractor's facilities; and promptly complying with all State directives considered essential by any office or agency of the State of Alaska to insure compliance with all federal and State laws, regulations, and policies pertaining to the prevention of discriminatory employment practices.

4.7 Failure to perform under this article constitutes a material breach of contract.

Article 5. Termination.
The Project Director, by written notice, may terminate this contract, in whole or in part, when it is in the best interest of the State. In the absence of a breach of contract by the contractor, the State is liable only for payment in accordance with the payment provisions of this contract for services rendered before the effective date of termination.

Article 6. No Assignment or Delegation.
The contractor may not assign or delegate this contract, or any part of it, or any right to any of the money to be paid under it, except with the written consent of the Project Director and the Agency Head.

Article 7. No Additional Work or Material.
No claim for additional services, not specifically provided in this contract, performed or furnished by the contractor, will be allowed, nor may the contractor do any work or furnish any material not covered by the contract unless the work or material is ordered in writing by the Project Director and approved by the Agency Head.

Article 8. Independent Contractor.
The contractor and any agents and employees of the contractor act in an independent capacity and are not officers or employees of or agents of the State in the performance of this contract.

Article 9. Payment of Taxes.
As a condition of performance of this contract, the contractor shall pay all federal, State, and local taxes incurred by the contractor and shall require their payment by any Subcontractor or any other persons in the performance of this contract. Satisfactory performance of this paragraph is a condition precedent to payment by the State under this contract.

Article 10. Ownership of Documents.
All designs, drawings, specifications, notes, artwork, and other work developed in the performance of this agreement are produced for hire and remain the sole property of the State of Alaska and may be used by the State for any other purpose without additional compensation to the contractor. The contractor agrees not to assert any rights and not to establish any claim under the design patent or copyright laws. Nevertheless, if the contractor does mark such documents with a statement suggesting they are trademarked, copyrighted, or otherwise protected against the State's unencumbered use or distribution, the contractor agrees that this paragraph supersedes any such statement and renders it void. The contractor, for a period of three years after final payment under this contract, agrees to furnish and provide access to all retained materials at the request of the Project Director. Unless otherwise directed by the Project Director, the contractor may retain copies of all the materials.

Article 11. Governing Law; Forum Selection
This contract is governed by the laws of the State of Alaska. To the extent not otherwise governed by Article 3 of this Appendix, any claim concerning this contract shall be brought only in the Superior Court of the State of Alaska and not elsewhere.

**Article 12. Conflicting Provisions.**
Unless specifically amended and approved by the Department of Law, the terms of this contract supersede any provisions the contractor may seek to add. The contractor may not add additional or different terms to this contract; AS 45.02.207(b)(1). The contractor specifically acknowledges and agrees that, among other things, provisions in any documents it seeks to append hereto that purport to (1) waive the State of Alaska's sovereign immunity, (2) impose indemnification obligations on the State of Alaska, or (3) limit liability of the contractor for acts of contractor negligence, are expressly superseded by this contract and are void.

**Article 13. Officials Not to Benefit.**
Contractor must comply with all applicable federal or State laws regulating ethical conduct of public officers and employees.

**Article 14. Covenant Against Contingent Fees.**
The contractor warrants that no person or agency has been employed or retained to solicit or secure this contract upon an agreement or understanding for a commission, percentage, brokerage or contingent fee except employees or agencies maintained by the contractor for the purpose of securing business. For the breach or violation of this warranty, the State may terminate this contract without liability or in its discretion deduct from the contract price or consideration the full amount of the commission, percentage, brokerage or contingent fee.

**Article 15. Compliance.**
In the performance of this contract, the contractor must comply with all applicable federal, state, and borough regulations, codes, and laws, and be liable for all required insurance, licenses, permits and bonds.

**Article 16. Force Majeure:**
The parties to this contract are not liable for the consequences of any failure to perform, or default in performing, any of their obligations under this Agreement, if that failure or default is caused by any unforeseeable Force Majeure, beyond the control of, and without the fault or negligence of, the respective party. For the purposes of this Agreement, Force Majeure will mean war (whether declared or not); revolution; invasion; insurrection; riot; civil commotion; sabotage; military or usurped power; lightning; explosion; fire; storm; drought; flood; earthquake; epidemic; quarantine; strikes; acts or restraints of governmental authorities affecting the project or directly or indirectly prohibiting or restricting the furnishing or use of materials or labor required; inability to secure materials, machinery, equipment or labor because of priority, allocation or other regulations of any governmental authorities.

RE: RFP Number 170007304, Transcription Services, State of Alaska

Dear Sirs and/or Madams,

Transcription Outsourcing, LLC is respectfully requesting to be considered for RFP Number 170007304, Transcription Services for the State of Alaska (through NASPO ValuePoint). All the required information necessary to formally apply to the RFP are presented within, but we wanted to highlight some of the advantages we can bring to this contract for Alaska (and the other participating states) that set us apart from our competitors.

Transcription Outsourcing, LLC has been in the transcription business for over 10 years. We have hired only the best U.S. legal, general, and medical transcriptionists, all of whom we have tested and screened, and all of whom have years of experience with transcription work. All our transcriptionists are also experts in researching unknown words, difficult audio, multi-speaker files, and verbatim transcription, and produce outstanding, complete, and accurate documents for our clients.

Our company prides itself on providing exceptional customer service. We are always available to answer questions by phone or email, and always respond to requests promptly. We have utilized our easy-to-use online transcription platform for the last 10 years, and feel any interested division regardless of specialization will find it has all the capabilities they need in a transcription service provider and more. We offer ongoing training and support on the system so that all users are comfortable using it, and never charge extra for additional training or support.

Currently, we work with several relevant clients across the U.S., including the Colorado Department of Motor Vehicles, Community Hospital in Grand Junction, the University of Colorado, and New York University, in addition to various police departments and State Patrol agencies. We produce IMEs, academic transcripts, notarized court proceedings, and various legal documents, in addition to many types of law enforcement transcription (not specified by this RFP but also an area of expertise). All of our clients, regardless of industry, will tell you if contacted that we completed their project quickly and accurately, and that they would recommend us to others — the highest compliment we can get. We can provide references to those clients or any others mentioned in the RFP if requested.

In addition, we are confident we can successfully provide all aspects of the work as described in the RFP. We can transcribe files with 100% accuracy and 24-hour turnaround time; we can ensure the
confidentiality and security of your data files; we have the staffing resources to be able to meet all transcription, reporting, and billing requirements; and we can provide an advanced reporting feature for all authorized users to track current usage broken up by user or department. Plus, we can accept VISA or p-cards as a method of payment. We can also provide proof of any certifications or insurance requirements you may need prior to the execution of the contract.

We thank you for your time and consideration. If you have any questions regarding this proposal, you can reach me by phone at 720-287-3710 or by email at bwalker@transcriptionoutsourcing.net.

i. **A brief history of your company and the year it was founded**
   Ben Walker, the CEO of Transcription Outsourcing, LLC, first entered the transcription industry in 2006 when he co-founded eTransMed in Omaha, Nebraska. After deciding to expand to provide clients with other types of transcription services, Mr. Walker opened a new company, Transcription Outsourcing, LLC, in 2010 in Denver, Colorado. This origin of Transcription Outsourcing is uniquely relevant to this RFP, requiring

Customer Service

a. What are your hours of operation and when are key account people available to the Participating States?

Team leads are available to promptly answer any and all phone calls and emails between 7AM and 5PM MST. We provide 24/7 services for transcription as needed with varying turnaround time windows - from 4 hours up through several days. The CEO, office manager, and team leads all check their emails outside of normal business hours, and if a voice message is left at the office we have a system that sends a link to that message to the appropriate person's email, so we can listen to them anytime, anywhere.

b. Describe how problem identification and resolution will be handled.

Any problems with transcripts can be addressed in multiple ways. Satisfaction with transcripts is guaranteed, and we will make any requested changes free of charge. This can be initiated in two main ways:
- Immediate contact with your team lead by phone, text, or email
- Feedback tool built in to our online platform

Each of these methods will result in feedback sent to your team and to the transcriptionists assigned to your account, so any mistakes will not be repeated.

In order to have as few problems as possible, we work with our clients from the beginning to establish style guides and templates fit for every individual dictator and account. See Attachment B at the end of this document for an example style guide we use as reference.

c. Describe the system you will use to manage multiple accounts.

Transcription Outsourcing is divided into multiple divisions, including general, medical, and legal teams, with account managers for each. Should the need ever arise, we also have divisions for financial, law enforcement, and academic transcription. Each of these team leads are available for direct contact by their clients. We have never had problems in the past staffing for evening, weekend, and holiday work. Working with Loveland Police Department currently, we provide 6-hour turnaround time 24/7, while able to maintain consistent coverage for them during that time. This is all while maintaining our accuracy standards and processing up to 400 files per week for the single account.
d. What are your policy and procedures for responding to customer complaints and service issues?

Each document we transcribe is guaranteed to customer satisfaction. We guarantee 99% accuracy and make any requested changes to any document, free of charge. Additionally, there is a built-in tool on our platform for any corrections customers make before signing and approving documents. See below for details on our QA system:

Our Quality Assurance System

Transcription Outsourcing, LLC has a very stringent quality assurance (QA) process in place for current clients that will also be applied to Alaska (and any other contracting state): guaranteed 99% accuracy. In addition to this standard, any files deemed less than 99% accurate by any client may be returned for correction free of cost (with the exception of shipping fees if paper copies are required).

Typically, files are quality checked by at least two people – the original transcriptionist, and the QA editor. Both are experienced in transcription, including any required formatting of the client, terminology and general slang (as this is often relevant). If needed, we can have one of our experienced medical transcriptionists QA or transcribe any legal or general files as well. This will be very helpful if, for example, the legal division of a participating state needs to include in their report a summary of a child’s medical records, or a technical description of injuries sustained. Difficult quality audio files are flagged and will be checked a third time, by a second-level QA editor, before being returned to the client.

The Transcription Outsourcing, LLC team prides ourselves on our accuracy standards, and seldom have an issue with not meeting a client’s required accuracy. If, however, for some reason a returned file falls short of expectations, there are two recourses available. First, any authorized user can reject a file from their Inbox if it needs correcting, with a note explaining why if they wish. The rejected file then goes back to the transcriptionist who processed the file, and the transcriptionist, QA editor and the account manager all get notified by email of the rejection. We can then fix the file, re-check it for accuracy, and re-upload the file to the user’s Inbox within 24 hours.
Second, all employees who use our transcription services will be provided with both the Office Manager and Project Coordinator's contact information. Simply alert one of them to the issue by phone, text, or email, and we will re-check the file to ensure its complete accuracy and return within 24 hours or less.

We understand that not meeting accuracy expectations as clearly spelled out in the RFP is a very serious issue, and would not expect any client to pay for any files that do not meet their standards.

e. How do you assess customer satisfaction?
We have tools to run reports evaluating and quantifying corrections made by customers, and receive emails every time changes are made to reports we produce, so we are kept aware of what is being corrected without any extra communication on the part of the client. We use our customer retention rate as a benchmark. Additionally, Transcription Outsourcing has never lost a contract that we have won through the RFP/IFB process.

f. What are your quality assurance measures and how are they handled in your organization?
We routinely audit our own transcriptionists to ensure their quality matches our 99% guarantee. We use feedback from clients and make sure we work with only the brightest transcriptionists. We do not accept sub-par work of any kind in our organization. These audits measure any mistakes or inconsistencies within a transcriptionists' work over time and are run regularly. Mistakes and feedback are delivered to the transcriptionists directly. If issues recur, transcriptionists are replaced.

g. What measures do you take, if any, to ensure that you are not overloaded by a single large order?
We use a large pool of independent contractor transcriptionists spread across the U.S. to accommodate variable influx of large projects to the company. We also have a pool of transcriptionists that we keep in contact with in case work volume expands suddenly. Our website receives anywhere from 1 to 5 employment inquiries per day.

We have successfully managed spikes in workflow while working with the Washington State Patrol and the Arkansas State Police for the last four and three years respectively. These agencies are statewide and have well over 1,000 employees each.
Technology

a. **Describe your methods for order submissions, including online system, if any, that purchasing entities would use to place orders and receive results.**
   We have an online platform for complete end-to-end dictation, accepting files from an iPhone app, phone-in dictation system, or website upload, and delivering completed transcripts directly back to a web portal. We also accept files through Box.com, where a HIPAA-compliant folder can be set up for submissions and returned transcripts.

b. **Describe your ability and processes to support a decentralized system of orders submitted from many end users in multiple states and locations.**
   Our platform is entirely driven through the web and is capable of delivering automated notifications to transcriptionists assigned to your account with details of your desired turnaround time and whether or not a report is a STAT so things move reliably and quickly. This system can handle hundreds of concurrent users and is backed up by redundant internet connections from multiple carriers, to ensure no downtime, with servers across the U.S. for good data speeds.

c. **Describe your file format requirements.**
   Transcription Outsourcing, LLC is able to accept any form of voice recording, including: wav, mp3, aac, act, aifc, aiff, amr, ape, au caf, dct, ds2, dss, dsp, dvf, dvs, flac, ogg, m4a, mp2, mpc, msv, qcp, ra/rm, shn, spx, voc, vox, wma. We also have the capabilities to accept video files for transcription. We can handle encrypted files as long as a tool is included to play the files (e.g. video from prisons, etc.).

   We have several audio converters that we have already purchased and can use to convert any audio file format into a more-common format, like .mp3 or .wav, if needed. We will purchase any additional conversion software at our own expense if required for any state contract.

   In addition, if Scribe for some reason will not accept a specific audio format for upload (which so far has never happened with any of our clients), Transcription Outsourcing, LLC has secure alternate methods in place. Users can still send the audio files to us through many different file sharing platforms, preferably our HIPAA-compliant Box account. Via the platform YouSendIt, for example, files are encrypted before sending, and they may be downloaded only after the recipient enters their account user name and password.
4.5.2 Data Security & Confidentiality

a. What measures do you take to protect sensitive customer information and comply with all federal requirements including but not limited to Health Insurance Portability Accountability Act (HIPAA) and Personality Identifiable Information (PII)?

Transcription Outsourcing, LLC already has in place rigorous data security features and standards in order to comply with the federally-mandated Health Insurance Portability and Accountability Act (HIPAA) and Health Information Technology for Economic and Clinical Health Act (HITECH) regulations in the medical transcription field. These are considered the most stringent security and confidentiality guidelines in the United States. They guard against releasing any confidential data, including names, dates of birth, addresses, social security numbers, or any other identifying personal detail. If confidential data is released, inadvertently or otherwise, hefty fines are levied against the vendor by the federal government.

Our platform is HIPAA-compliant as well as CJIS, which means it has the highest security features a transcription platform can have. If awarded the contract, we will continue to follow those same stringent guidelines we already have in place.

b. Describe your methods for handling and reporting security events.

Transcription Outsourcing, LLC has a data breach procedure guideline already in place that all employees and independent contractors have signed, to acknowledge their acceptance of these procedures. The text of this is below:

Employee or Independent Contractor will report to Transcription Outsourcing, LLC within a reasonable time period of discovery any (a) Security Incident, or (b) Security Breach as defined at 45 C.F.R. Part 164, Subpart D. Employee or Independent Contractor will identify: (a) The nature of the non-permitted use or disclosure including how such use or disclosure was made; (b) The unsecured PHI used or disclosed; (c) If possible and applicable, the identity of the person/entity who received the unsecured PHI; (d) What corrective action Contractor took; (e) What Employee or Independent Contractor did to mitigate any deleterious effect; and (f) Such other information as Transcription Outsourcing, LLC or their clients may request.
Again, although some parts of that guideline are geared toward medical clients and HIPAA/HITECH standards, they can equally apply to any client with any confidentiality concerns, and they can be altered to include any breach procedures already in place by any client. Currently the guidelines, in brief, spell out exactly what the reporting procedures are in case a breach is suspected or detected.

In addition, Scribe has several security features in place in case of a breach of confidential data. On each individual file, we track which user has accessed it, and what they have done with it (edited it, printed it, faxed it, etc.) The screenshot below shows an example of the tracking information available. (Please note, the screenshot is from a demo account and does not reflect any actual patient/client information.)

As you can see, you can view the document’s full history, including who created it (who called in the file), who completed it (which transcriptionist typed it), when it was uploaded to the system (AI to MD), and every user who has opened, edited, printed, faxed and downloaded the file and at what time and date they did so. In addition, please note if you click on the "Fax" hyperlink, it will show you which fax number the file was sent to, and if this particular file was emailed it would show which email address it was sent to.

c. What policies and procedures do you follow to maintain confidentiality of all transcription files?

We have data breach guidelines already in place, and every file that passes through our online platform has tracking data associated with every step of its life, from submission date to the times and user identifiers of anyone who has accessed, faxed, transcribed, edited, or viewed the transcript. All of this
information is logged and accessible to account administrators. Our security is broken down further in the sections that follow.

Encryption

We host confidential data on our Scribe data hosting platform. This fully-encrypted platform is used to host both voice and data files, and we have used it successfully, without incident, for the last nine years. Scribe’s security features include:

- Redundant backups and networks
- Scaled network redundancy
- Virtual Private Network (VPN) integration
- Dedicated datacenters
- Firewalled servers
- Secured FTP/SFTP servers
- Secure 128-bit SSL encryption

Documents on Scribe are fully encrypted with SSL (Secure Socket Layer) encryption, which encrypts segments of network connections and uses symmetric encryption for confidentiality and asymmetric cryptography for key exchange. Data, including voice files and returned documents, are encrypted both on delivery to the vendor and when returned to the agency.

Limiting Access

Each user will receive their own unique username and password to access files. Transcription Outsourcing, LLC is able to set up accounts so that multiple people have access to the same files, or we can restrict access of files to individual users.

We have several account types with different levels of access: Full Access can edit, print, fax, email, and archive files. Read/Print Only Access can view and print files, but not edit them. Read Only Access can only view files. We can also set up accounts that have a combination of the above features, giving each user only the access you want them to have. If chosen as NASPO’s transcription vendor, we can go through each of the access options with any project contact to ensure full understanding and that the client’s security standards are met.

In case of employee turnover, we are able to immediately revoke any user’s access to the system and discontinue their access to any data, including both
voice and data files. We can also change a user's permission setting at any time, limiting or expanding their access as needed.

Firewalls protect data access anywhere personal data is stored, and physical access to all of our data is also highly limited, as detailed in the next section.

**Physical Access and Security**

Physical access to our data storage is controlled by a multi-stage security system. This includes card access, 24/7/365 security lighting, video cameras, surveillance, and locked cabinets. This applies to our data centers as well as our office in Denver.

**Security Guidelines**

We also have general security guidelines in place for all of our workers, which include password protecting any and all confidential information, restricting access with a user name and password on both their work computer and their internet access, and strict email guidelines to avoid revealing any PII, or personally identifiable information, which includes a person's name, birthdate, social security number, telephone number and email address.

In addition, we only use U.S. transcriptionists to further ensure security. We have found through previous experience that the technological infrastructure of most offshoring countries (India, the Philippines, etc.) is not sufficient to handle the proper encryption and transmission of sensitive data.

**Confidentiality Agreements**

Transcription Outsourcing, LLC already has confidentiality agreements in place with all of our employees and contractors, and we can provide copies of such agreements to the State of Alaska if requested. We are also willing to sign or have our contractors sign any confidentiality agreements the State of Alaska provides, and distribute and follow any guidelines necessary to preserve all confidential data.

We acknowledge a lost or shared data or security decryption key are to be
considered breaches of security.

4.5.5 Marketing of the NASPO ValuePoint Master Agreement

The NASPO ValuePoint Master Agreement Terms and Conditions include program provisions governing participation in the cooperative, reporting and payment of administrative fees, and marketing/education relating to the NASPO ValuePoint cooperative procurement program. In this regard,

a. Briefly describe how you intend to promote the use of the Master Agreement.

Transcription Outsourcing, LLC will promote the Master Agreement using a number of different marketing methods, including a new website dedicated to this Master Agreement, marketing materials specifically for this Master Agreement, and email and phone campaigns. We will also partner with any marketing firm with relevant expertise in order to promote use of the Master Agreement.

b. Knowing that state procurement officials (CPO) must permit use of the Master Agreement in their state, how will you integrate the CPO’s permission into your plan for promoting the agreement?

Because each state is different, we will be flexible based on that state’s CPO and that state’s needs and requirements. Our proposal is flexible enough to cover almost any transcription need we have encountered, and we are happy to offer any of those services to any NASPO ValuePoint member.

c. Public entities are sensitive to “scope” issues, that is, whether performance is within the intended scope of the solicitation as awarded. In the context of your method of promoting agreements of this nature, how would you clarify any questions regarding the scope the agreement with respect to any potential order?

Transcription Outsourcing’s specialties expand beyond the scope of this solicitation, so we anticipate being able to accommodate any requests for transcription services across specialties like the law enforcement and academic fields, because they fall under our definition of “General Transcription Services”, which the Master Agreement and Price Matrix both list.

d. How will your company manage due dates for administrative fee payments and usage reports?

Transcription Outsourcing will set up reminders in our accounting software, calendars, and for each team lead and accountant, to double- and triple-check that
all payments are made on-time and accurately. This is also true of any additional fees required for any state-specific addendum.

e. Through its Cooperative Development Coordinators and Education & Outreach team, NASPO ValuePoint assists Lead States by engaging vendors in strategies aimed at promoting master agreements. What opportunities and/or challenges do you see in working with NASPO ValuePoint staff in this way?

The biggest challenge is helping others understand transcription services, where they are needed, and where they are useful. We are excited about this opportunity to utilize the expertise of the Development Coordinators and Education & Outreach team, and welcome opportunities to leverage the skill and advice of ValuePoint coordinators. We will create a website, marketing materials, and emails, all specific to the Master Agreement.

Section 1: NASPO ValuePoint Solicitation - General Information

1.1. Purpose

The State of Alaska, Division of General Services (Lead State) is requesting proposals for Transcription Services in furtherance of the NASPO ValuePoint Cooperative Purchasing Program. The purpose of this solicitation is to establish master agreements with qualified Offerors to provide all transcription services for, general, medical, and legal records to convert speech; either live or recorded, into written or electronic text document for all Participating States. The objective of this solicitation is to obtain best value, and in some cases, achieve more favorable pricing, than is obtainable by an individual state or local government entity because of the collective volume of potential purchases by numerous state and local government entities. The master agreement(s) resulting from this procurement may be used by state governments (including departments, agencies, institutions), institutions of higher education, political subdivisions (i.e., colleges, school districts, counties, cities, etc.), the District of Columbia, territories of the United States, and other eligible entities subject to approval of the individual state procurement director and compliance with local statutory and regulatory provisions. The initial term of the Master Agreement will be two (2) years with three (3) one (1) year renewal options as outlined in Section 2 of the NASPO ValuePoint Master Agreement Terms and Conditions (Attachment A).

It is anticipated that this solicitation may result in Master Agreement awards to multiple Contractors, at the Lead State’s discretion.

This solicitation is designed to provide interested Offerors with sufficient information to submit proposals meeting minimum requirements, but is not intended to limit a proposal's content or exclude any relevant or essential data. Offerors are encouraged to expand upon the specifications to add service and value consistent with state requirements.

This will be a new Master Agreement for the State of Alaska and NASPO ValuePoint.

While the primary purpose of this solicitation is to select Offerors, who can provide Medical, Legal, and General Transcription service for all members participating in the NASPO ValuePoint Cooperative Purchasing Program, Offerors are permitted to submit a proposal on more limited geographical areas, but not less than one entire member state. Offerors must clearly describe the geographical limits (e.g. by State(s) name) if proposing a geographical area less than that of all member states. However, if an Offeror elects to submit a proposal for a single state then the Offeror must be willing to
supply the entire state and will not be allowed to add additional states following award or at any time during the term of the contract or any renewals.

The Lead State/sourcing team, with the assistance as deemed advisable of the relevant participating state (or relevant group of Participating States), may evaluate and select an Offeror for award in more limited geographical areas, (e.g. a single state) where judged to be in the best interest of the state or states involved.

In the event that the Offeror so restricts its proposal, the Lead State may consider the Offeror’s restriction and evaluate whether the award on such basis will result in the best value to the Lead State and the NASPO ValuePoint program. The Lead State may otherwise determine at its sole discretion that such restriction is non-responsive and renders the Offeror ineligible for further evaluation.

Offerors must comply with all of the terms of the solicitation, the State Procurement Code (AS 36.30), and all applicable local, state, and federal laws, codes, and regulations. The procurement officer may reject any proposal that does not comply with all of the material and substantial terms, conditions, and performance requirements of the solicitation.

Offerors may not qualify the proposal nor restrict the rights of the state. If an Offeror does so, the Lead State may determine the proposal to be a non-responsive counter-offer and the proposal may be rejected.

The state reserves the right to refrain from making an award if it determines that to be in its best interest. A proposal from a debarred or suspended Offeror shall be rejected.

2.12. Vendor Tax ID

A valid Vendor Tax ID must be submitted to the issuing office with the proposal or within five days of the state's request.

2.13. Proposal Content and Format Requirements

Proposals must be detailed and concise. Each proposal must be labeled and organized in a manner that is congruent with the requirements and terminology used in this solicitation and must include a point-by-point response, structured in form and reference to the solicitation, addressing all requirements and the scope of work elements. Advertising and marketing material is not allowed.

The following information must be included in all proposals.

(a) **Authorized Signature.** All proposals must be signed by an individual authorized to bind the Offeror to the provisions of this solicitation.

(b) All proposals must be submitted in the following format. Detailed information on submitting each of these sections is contained in later sections of this solicitation.

1. **Executive Summary.** The one (1) or two (2) page executive summary is to briefly describe the Offeror's proposal. This summary should highlight the major features of the proposal including any requirements that cannot be met by the Offeror. The Lead State should be able to determine the essence of the proposal by reading the executive summary.

2. **Technical Response.** This section should constitute the technical response of the proposal and must contain at least the following information:

   A. A complete narrative of the Offeror's assessment of the work to be performed, the Offeror's ability and approach, and the resources necessary to fulfill the requirements. This should demonstrate the Offeror's understanding of the desired overall performance expectations and clearly indicate any options or alternatives proposed.

   B. A specific point-by-point response, in the order listed, to each requirement in the solicitation and scope of work.

3. **Confidential, Protected or Proprietary Information.** All confidential, protected or proprietary Information must be included in this section of proposal response. Rather, provide a reference in the proposal response directing Lead State to the specific area of this protected information section.

4. **Cost Proposal.** Cost will be evaluated independently from the technical proposal response. Please enumerate all costs on the attached Cost Sheet Matrix. Inclusion of any cost or pricing data within the technical proposal may result in your proposal being deemed non-responsive.

2.14. Required Review
Offerors should carefully review this solicitation for defects and questionable or objectionable material. Comments concerning defects and objectionable material must be made in writing and received by the Lead State contracting manager at least ten (10) days before the deadline for receipt of proposals. This will allow time for the issuance of any necessary amendments. It will also help prevent the opening of a defective solicitation and exposure of Offeror's proposals upon which award could not be made. Protests based on any omission or error, or on the content of the solicitation, will be disallowed if these faults have not been brought to the attention of the Lead State contracting manager, in writing, at least ten (10) days before the deadline for receipt of proposals.

2.15. Conflict of Interest

Each proposal shall include a statement indicating whether or not the firm or any individuals working on the contract has a possible conflict of interest (e.g., currently employed by the State of Alaska or formerly employed by the State of Alaska within the past two years) and, if so, the nature of that conflict. The commissioner of the Department of Administrations reserves the right to consider a proposal non-responsive and reject it or cancel the award if any interest disclosed from any source could either give the appearance of a conflict or cause speculation as to the objectivity of the program to be developed by the Offeror. The commissioner's determination regarding any questions of conflict of interest shall be final.

2.16. Severability

If any provision of the contract or agreement is declared by a court to be illegal or in conflict with any law, the validity of the remaining terms and provisions will not be affected; and, the rights and obligations of the parties will be construed and enforced as if the contract did not contain the particular provision held to be invalid.

2.17. Ownership or Disposition of Proposals and other Materials Submitted

All Proposals and other material submitted become the property of the State of Alaska and may be returned only at the state's option. AS 40.25.110 requires public records to be open to reasonable inspection. All proposal information, including detailed price and cost information, will be held in confidence during the evaluation process and prior to the time a notice of intent to award is issued. Thereafter, proposals will become public information.

2.18. Confidential or Proprietary Information

Proposer should be aware that marking any portion of a proposal as “confidential”, “proprietary” or “trade secret” may exclude it from evaluation or considerations for award.
Any such information must be included in a separate section of the Offeror’s proposal response clearly marked as “CONFIDENTIAL AND PROPRIETARY INFORMATION”. Do not incorporate confidential and proprietary information throughout the proposal response. Rather, provide a reference in the proposal response directing the reader to the CONFIDENTIAL AND PROPRIETARY INFORMATION section. Elements of the proposal that define the contractual requirements, such as approaches to the statement of work, prices, and schedule, may not be marked as confidential and proprietary. Proposals not complying with these instructions for identification and segregation of confidential and proprietary information may be rejected.

Information included in the CONFIDENTIAL AND PROPRIETARY INFORMATION section of an Offeror’s proposal is not automatically accepted and protected. All information identified in the CONFIDENTIAL AND PROPRIETARY INFORMATION section will be subject to review by the Lead State in accordance with the procedures prescribed by the Lead State’s open records statute, freedom of information act, or similar law.

**Redacted Proposal Response**

In the event an Offeror includes a CONFIDENTIAL AND PROPRIETARY INFORMATION section in their proposal response, an electronic redacted copy of the Offeror’s proposal (as accepted) must be submitted with the final proposal (e.g. a best and final offer) or as otherwise directed by the Lead State. Offeror acknowledges that any information in the redacted copy of their proposal response will be made public.

**2.19. Supplemental Terms and Conditions**

The Lead State discourages exceptions to contract terms and conditions in the RFP, attached Participating Entity terms and conditions (if any), and the NASPO ValuePoint Master Agreement Terms and Conditions. Exceptions may cause a proposal to be rejected as nonresponsive when, in the sole judgment of the Lead State (and its evaluation team), the proposal appears to be conditioned on the exception or correction of what is deemed to be a deficiency or unacceptable exception would require a substantial proposal rewrite to correct.

Offerors should identify or seek to clarify any problems with contract language or any other document contained within this RFP through their written inquiries about the RFP using the process in Section 2.1.

If the Lead State fails to identify or detect supplemental terms or conditions that conflict with those contained in this solicitation or that diminish the state’s rights under any contract resulting from the solicitation, the supplemental term(s) or condition(s) will be considered null and void. After award of contract:

a) if conflict arises between a supplemental term or condition included in the proposal and a term or condition of the solicitation, the term or condition of the solicitation will prevail; and
b) if the state's rights would be diminished as a result of application of a supplemental term or condition included in the proposal, the supplemental term or condition will be considered null and void.

2.20. Certification of Non-Debarment

The Offeror certifies that neither the Offeror nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction (Master Agreement) by any governmental department or agency. If the Offeror cannot certify this statement, attach a written explanation for review by the Lead State.

2.21. Human Trafficking

By signature on their proposal, the Offeror certifies that the Offeror is not established and headquartered or incorporated and headquartered in a country recognized as Tier 3 in the most recent United States Department of State's Trafficking in Persons Report.

The most recent United States Department of State’s Trafficking in Persons Report can be found at the following website: http://www.state.gov/j/tip/

Failure to comply with this requirement will cause the Lead State to reject the proposal as non-responsive, or cancel the contract.

Section 3: Evaluation and Award

3.1. Right to Waive Minor Irregularities

The Lead State in its sole discretion reserves the right to waive minor irregularities in the proposal, which include but are not limited to corrections of deficiencies or clarification of ambiguities that in the judgment of the Lead State do not require a comprehensive proposal rewrite. The Lead State also reserves the right in its sole discretion to waive certain mandatory requirements provided that all of the otherwise responsive proposals fail to meet the same mandatory requirements and the failure to do so does not materially affect the procurement.

Minor informalities that may be waived by the contracting manager are those that:

- do not affect responsiveness;
- are merely a matter of form or format;
- do not change the relative standing or otherwise prejudice other offers;
- do not change the meaning or scope of the solicitation;
- are trivial, negligible, or immaterial in nature;
- do not reflect a material change in the work; or
- do not constitute a substantial reservation against a requirement or provision.
3.2. Discussions with Offerors

The Lead State may conduct discussions with Offerors in accordance with AS 36.30.240 and 2 AAC 12.290. The purpose of these discussions will be to ensure full understanding of the requirements of the solicitation and proposal. Discussions will be limited to specific sections of the solicitation or proposal identified by the contracting manager. Discussions will only be held with Offerors who have submitted a proposal deemed reasonably susceptible for award by the procurement officer. Discussions, if held, will be after initial evaluation of proposals by the contracting manager or the sourcing team. If modifications are made as a result of these discussions, they will be put in writing. Following discussions, the contracting manager may set a time for best and final proposal submissions from those Offerors with whom discussions were held. Proposals may be reevaluated after receipt of best and final proposal submissions.

If an Offeror does not submit a best and final proposal or a notice of withdrawal, the Offeror’s immediate previous proposal is considered the Offeror’s best and final proposal.

Offerors with a disability needing accommodation should contact the procurement officer prior to the date set for discussions so that reasonable accommodation can be made. Any oral modification of a proposal must be reduced to writing by the Offeror.

3.3. Award of Master Agreement(s)

The distribution of points based on cost will be determined as set out in 2 AAC 12.260(c). The lowest cost proposal will receive the maximum number of points allocated to costs. The points allocated for cost on the other proposals will be determined using the following formula.

\[
(\text{Price of Lowest Cost Proposal}) \times (\text{Maximum Points for Cost}) \div (\text{Cost of Each Higher Priced Proposal})
\]

3.5. Notice of Intent to Award

After the completion of contract negotiations, the contracting manager will issue a written Notice of Intent to Award (NOI) and send copies to all Offerors. The NOI will set out the names of all responsive, responsible Offerors and identify the proposal selected for award. Once NOI is issued proposals, minus any approved confidential information, will become public information.

3.6 Application of Preferences:

Following the identification of the NASPO ValuePoint apparent successful Offeror(s), the State of Alaska will apply its 5% Alaska Bidder preference, 5% Alaska Veteran Preference, 10% Alaskan Offeror preference and all other statutory and regulatory preferences that are claimed by eligible vendors.

If it is determined after the application of preferences that the apparent successful Offeror(s) are the same a Notice of Intent to Award will be issued and a Master Agreement will be negotiated and executed with the Offeror(s) and the State of Alaska may execute a participating addendum to enable purchases from the MA.

If it is determined after the application of preferences the ranking is different. A notice of Intent to Award will be issued and a National MA will be negotiated and executed with vendors not claiming State of Alaska preferences. This MA will be available for use by all governmental entities.
A state of Alaska-specific MA will then be negotiated and executed with vendors that did claim State of Alaska preferences for use by State of Alaska governmental entities. The state of Alaska must participate in the State of Alaska MA but may also choose to participate in the National MA.

3.7 Protest

AS 36.30.560 provides that an interested party may protest the content of the solicitation.

An interested party is defined in 2 AAC 12.990(a) (7) as "an actual or prospective bidder or Offeror whose economic interest might be affected substantially and directly by the issuance of a contract solicitation, the award of a contract, or the failure to award a contract."

If an interested party wishes to protest the content of a solicitation, the protest must be received, in writing, by the contracting manager at least ten days prior to the deadline for receipt of proposals.

AS 36.30.560 also provides that an interested party may protest the award of a contract or the proposed award of a contract.

If an Offeror wishes to protest the award of a contract or the proposed award of a contract, the protest must be received, in writing, by the contracting manager within ten (10) days after the date the notice of intent to award the contract is issued.

A protester must have submitted a proposal in order to have sufficient standing to protest the proposed award of a contract. Protests must include the following information:

- the name, address, and telephone number of the protester;
- the signature of the protester or the protester's representative;
- identification of the contracting agency and the solicitation or contract at issue;
- a detailed statement of the legal and factual grounds of the protest including copies of relevant documents; and the form of relief requested.

Protests filed by telex or telegram are not acceptable because they do not contain a signature. Fax copies containing a signature are acceptable.

The contracting manager will issue a written response to the protest. The response will set out the procurement officer's decision and contain the basis of the decision within the statutory time limit in AS 36.30.580. A copy of the decision will be furnished to the protester by certified mail, fax, or another method that provides evidence of receipt.

All Offerors will be notified of any protest. The review of protests, decisions of the
contracting manager, appeals, and hearings, will be conducted in accordance with the state procurement code (AS 36.30), Article 8 "Legal and Contractual Remedies."

3.8 Post Award Formalization of the Master Agreement

The Lead State reserves the right during contract negotiation of the Master Agreement to adjust terms and conditions that would not (in the Lead State’s judgment) have a material effect on price, schedule, scope of work, or risk to the Lead State and Participating States, with materiality defined in terms of the effect on the evaluation and award. The Lead State reserves the right to accept contract or pricing changes that are more favorable to the Lead State.

3.9 Failure to Negotiate

   (5) The solicitation or, if separately executed after award, the Lead State’s bilateral agreement that integrates applicable provisions;
   (6) Contractor’s response to the solicitation, as revised (if permitted) and accepted by the Lead State.

   b. These documents shall be read to be consistent and complementary. Any conflict among these documents shall be resolved by giving priority to these documents in the order listed above. Contractor terms and conditions that apply to this Master Agreement are only those that are expressly accepted by the Lead State and must be in writing and attached to this Master Agreement as an Exhibit or Attachment.

NASPO ValuePoint Program Provisions

2. Term of the Master Agreement

   a. The initial term of this Master Agreement is for two years. This Master Agreement may be extended beyond the original contract period for three additional one year terms at the Lead State’s discretion and by mutual agreement and upon review of requirements of participating entities, current market conditions, and Contractor performance.

   b. The Master Agreement may be extended for a reasonable period of time, not to exceed six months, if in the judgment of the Lead State a follow-on, competitive procurement will be unavoidably delayed (despite good faith efforts) beyond the planned date of execution of the follow-on master agreement. This subsection shall not be deemed to limit the authority of a Lead State under its state law otherwise to negotiate contract extensions.
3. Amendments

The terms of this Master Agreement shall not be waived, altered, modified, supplemented or amended in any manner whatsoever without prior written agreement of the Lead State and Contractor.

4. Participants and Scope

a. Contractor may not deliver products under this Master Agreement until a participating addendum acceptable to the participating entity and Contractor is executed. The NASPO ValuePoint Master Agreement terms and conditions are applicable to any order by a participating entity (and other purchasing entities covered by their participating addendum), except to the extent altered, modified, supplemented or amended by a participating addendum. By way of illustration and not limitation, this authority may apply to unique delivery and invoicing requirements, confidentiality requirements, defaults on orders, governing law and venue relating to orders by a participating entity, indemnification, and insurance requirements. Statutory or constitutional requirements relating to availability of funds may require specific language in some participating addenda in order to comply with applicable law. The expectation is that these alterations, modifications, supplements, or amendments will be addressed in the participating addendum or, with the consent of the purchasing entity and Contractor, may be included in the ordering document (e.g. purchase order or contract) used by the purchasing entity to place the order.

b. Use of specific NASPO ValuePoint cooperative Master Agreement’s by state agencies, political subdivisions and other participating entities (including cooperatives) authorized by individual state’s statutes to use state contracts are subject to the approval of the respective State Chief Procurement Official. Issues of interpretation and eligibility for participation are solely within the authority of the respective State Chief Procurement Official.

c. Obligations under this Master Agreement are limited to those participating entities who have signed a participating addendum and purchasing entities within the scope of those participating addenda. Financial obligations of participating entities who are states are limited to the orders placed by the departments or other state agencies and institutions having available funds. Participating entities who are states incur no financial obligations on behalf of other purchasing entities. Contractor shall email a fully executed PDF copy of each participating addendum to PA@naspovaluepoint.org to support documentation of participation and posting in appropriate data bases.

d. NASPO Cooperative Purchasing Organization LLC, doing business as NASPO ValuePoint, is not a party to the master agreement. It is a nonprofit cooperative purchasing organization assisting states in administering the NASPO cooperative purchasing program for state government departments, institutions, agencies and political subdivisions (e.g., colleges, school districts, counties, cities, etc.) for all 50 states, the District of Columbia and the territories of the United States.

e. Participating addenda shall not be construed to amend the following provisions in this Master Agreement between the Lead State and Contractor that prescribe NASPO ValuePoint Program requirements: term of the master agreement; amendments;
participants and scope; administrative fee; NASPO ValuePoint summary and detailed usage Reports; NASPO ValuePoint Cooperative program marketing and performance review; NASPO ValuePoint eMarketCenter; right to publish; price and rate guarantee period; and individual customers. Any such language shall be void and of no effect.

f. Participating entities who are not states may under some circumstances sign their own participating addendum, subject to the approval of participation by the Chief Procurement Official of the state where the participating entity is located. Coordinate requests for such participation through NASPO ValuePoint. Any permission to participate through execution of a participating addendum is not a determination that procurement authority exists in the participating entity; they must ensure that they have the requisite procurement authority to execute a participating addendum.

g. Resale. “Resale” means any payment in exchange for transfer of tangible goods, software, or assignment of the right to services. Subject to any specific conditions included in the solicitation or Contractor’s proposal as accepted by the Lead State, or as explicitly permitted in a participating addendum, purchasing entities may not resell products (the definition of which includes services that are deliverables). Absent any such condition or explicit permission, this limitation does not prohibit: payments by employees of a purchasing entity for products; sales of products to the general public as surplus property; and fees associated with inventory transactions with other governmental or nonprofit entities and consistent with a purchasing entity’s laws and regulations. Any sale or transfer permitted by this subsection must be consistent with license rights granted for use of intellectual property.

5. Administrative Fees

a. The Contractor shall pay to NASPO ValuePoint, or its assignee, a NASPO ValuePoint administrative fee of one-quarter of one percent (0.25% or 0.0025) no later than sixty (60) days following the end of each calendar quarter. The NASPO ValuePoint administrative fee shall be submitted quarterly and based on all sales of products and services under the Master Agreement (less any charges for taxes or shipping). The NASPO ValuePoint administrative fee is not negotiable. This fee is to be included as part of the pricing submitted with proposal.

b. Additionally, some states may require an additional fee be paid directly to the state only on purchases made by purchasing entities within that state. For all such requests, the fee level, payment method and schedule for such reports and payments will be incorporated into the participating addendum that is made a part of the master agreement. The Contractor may adjust the Master Agreement pricing accordingly for purchases made by purchasing entities within the jurisdiction of the state. All such agreements shall not affect the NASPO ValuePoint administrative fee percentage or the prices paid by the purchasing entities outside the jurisdiction of the state requesting the additional fee. The NASPO ValuePoint administrative fee in subsection 5a shall be based on the gross amount of all sales (less any charges for taxes or shipping) at the adjusted prices (if any) in participating addenda.

6. NASPO ValuePoint Summary and Detailed Usage Reports
In addition to other reports that may be required by this solicitation or in participating entities PAs, the Contractor shall provide the following NASPO ValuePoint reports.

The Contractor shall submit quarterly sales reports directly to NASPO ValuePoint using the NASPO ValuePoint Quarterly Sales/administrative fee reporting Tool found at http://www.naspo.org/WNCPO/Calculator.aspx. Any/all sales made under this Master Agreement shall be reported as cumulative totals by state. Even if Contractor experiences zero sales during a calendar quarter, a report is still required. Reports shall be due no later than thirty (30) days following the end of the calendar quarter (as specified in the reporting tool).

b. Detailed Sales Data. Contractor shall also report detailed sales data by: (1) state; (2) entity/customer type, e.g. local government, higher education, K12, non-profit; (3) purchasing entity name; (4) purchasing entity bill-to and ship-to locations; (4) purchasing entity and Contractor purchase order identifier/number(s); (5) purchase order type (e.g. sales order, credit, return, upgrade, determined by industry practices); (6) purchase order date; (7) ship date; (8) and line item description, including product number if used. The report shall be submitted in any form required by the solicitation. Reports are due on a quarterly basis and must be received by the Lead State and NASPO ValuePoint cooperative development team no later than thirty (30) days after the end of the reporting period. Reports shall be delivered to the Lead State and to the NASPO ValuePoint cooperative development team electronically through a designated portal, email, CD-ROM, flash drive or other method as determined by the Lead State and NASPO ValuePoint. Detailed sales data reports shall include sales information for all sales under participating addenda executed under this master agreement. The format for the detailed sales data report is shown in Attachment F.

c. Reportable sales for the summary sales data report and detailed sales data report includes sales to employees for personal use where authorized by the solicitation and the participating addendum. Report data for employees should be limited to ONLY the state and entity they are participating under the authority of (state and agency, city, county, school district, etc.) and the amount of sales. No personal identification numbers, e.g. names, addresses, social security numbers or any other numerical identifier, may be submitted with any report.

d. Contractor shall provide the NASPO ValuePoint cooperative development coordinator with an executive summary each quarter that includes, at a minimum, a list of states with an active participating addendum, states that Contractor is in negotiations with and any participating addendum roll out or implementation activities and issues. NASPO ValuePoint cooperative development coordinator and Contractor will determine the format and content of the executive summary. The executive summary is due thirty (30) days after the conclusion of each calendar quarter.

e. Timely submission of these reports is a material requirement of the master agreement. The recipient of the reports shall have exclusive ownership of the media containing the reports. The Lead State and NASPO ValuePoint shall have a perpetual, irrevocable, non-exclusive, royalty free, transferable right to display, modify, copy, and otherwise use reports, data and information provided under this section.
7. NASPO ValuePoint Cooperative Program Marketing and Performance Review

a. Contractor agrees to work cooperatively with NASPO ValuePoint personnel. Contractor agrees to present plans to NASPO ValuePoint for the education of Contractor's contract administrator(s) and sales/marketing workforce regarding the Master Agreement contract, including the competitive nature of NASPO ValuePoint procurements, the Master Agreement and participating addendum process, and the manner in which qualifying entities can participate in the master agreement.

b. Contractor agrees to participate in an annual contract performance review at a location selected by the Lead State and NASPO ValuePoint, which may include a discussion of marketing action plans, target strategies, marketing materials, as well as Contractor reporting and timeliness of payment of administration fees.

9. Right to Publish

Throughout the duration of this master agreement, Contractor must secure from the Lead State prior approval for the release of information that pertains to the potential work or activities covered by the master agreement. This limitation does not preclude publication about the award of the Master Agreement or marketing activities consistent with any proposed and accepted marketing plan. The Contractor shall not make any representations of NASPO ValuePoint's opinion or position as to the quality or effectiveness of the services that are the subject of this Master Agreement without prior written consent. Failure to adhere to this requirement may result in termination of the Master Agreement for cause.

10. Price and Rate Guarantee Period

All prices and rates must be guaranteed for the initial term of the master agreement. Following the initial Master Agreement period, any request for price or rate adjustment must be for an equal guarantee period, and must be made at least 30 days prior to the effective date. Requests for price or rate adjustment must include sufficient documentation supporting the request. Any adjustment or amendment to the Master Agreement shall not be effective unless approved by the Lead State. No retroactive adjustments to prices or rates will be allowed.

11. Individual Customers

Except to the extent modified by a participating addendum, each purchasing entity shall follow the terms and conditions of the Master Agreement and applicable participating addendum and will have the same rights and responsibilities for their purchases as the Lead State has in the master agreement, including but not limited to, any indemnity or right to recover any costs as such right is defined in the Master Agreement and applicable participating addendum for their purchases. Each purchasing entity will be responsible for its own charges, fees, and liabilities. The Contractor will apply the charges and invoice each purchasing entity individually.
Administration of Orders

12. Ordering

a. Master Agreement order and purchase order numbers shall be clearly shown on all acknowledgments, shipping labels, packing slips, invoices, and on all correspondence.

b. Purchasing entities may define project-specific requirements and informally compete the requirement among companies having a Master Agreement on an “as needed” basis. This procedure may also be used when requirements are aggregated or other firm commitments may be made to achieve reductions in pricing. This procedure may be modified in participating addenda and adapted to the purchasing entity’s rules and policies. The purchasing entity may in its sole discretion determine which Master Agreement Contractor's should be solicited for a quote. The purchasing entity may select the quote that it considers most advantageous, cost and other factors considered.

c. Each purchasing entity will identify and utilize its own appropriate purchasing procedure and documentation. Contractor is expected to become familiar with the purchasing entities’ rules, policies, and procedures regarding the ordering of supplies and/or services contemplated by this master agreement.

d. Contractor shall not begin work without a valid purchase order or other appropriate commitment document under the law of the purchasing entity.

e. Orders may be placed consistent with the terms of this Master Agreement during the term of the master agreement.

g. All communications concerning administration of orders placed shall be furnished solely to the authorized purchasing agent within the purchasing entity’s purchasing office, or to such other individual identified in writing in the order.

h. Orders must be placed pursuant to this Master Agreement prior to the termination date thereof, but may have a delivery date or performance period up to 120 days past the then-current termination date of this master agreement. Contractor is reminded that financial obligations of purchasing entities payable after the current applicable fiscal year are contingent upon agency funds for that purpose being appropriated, budgeted, and otherwise made available.
i. Notwithstanding the expiration, cancellation or termination of this master agreement, Contractor agrees to perform in accordance with the terms of any orders then outstanding at the time of such expiration or termination. Contractor shall not honor any orders placed after the expiration, cancellation or termination of this master agreement, or otherwise inconsistent with its terms. Orders from any separate indefinite quantity, task orders, or other form of indefinite delivery order arrangement priced against this Master Agreement may not be placed after the expiration or termination of this master agreement, notwithstanding the term of any such indefinite delivery order agreement.

13. Shipping and Delivery.

a. The prices are the delivered price to any purchasing entity. All deliveries shall be F.O.B. destination, freight pre-paid, with all transportation and handling charges paid by the Contractor. Responsibility and liability for loss or damage shall remain the Contractor's until final inspection and acceptance when responsibility shall pass to the purchasing entity except as to latent defects, fraud and Contractor's warranty obligations. The minimum shipment amount, if any, will be found in the special terms and conditions. Any order for less than the specified amount is to be shipped with the freight prepaid and added as a separate item on the invoice. Any portion of an order to be shipped without transportation charges that is back ordered shall be shipped without charge.

b. All deliveries will be “Inside Deliveries” as designated by a representative of the purchasing entity placing the Order. Inside delivery refers to a delivery to other than a loading dock, front lobby, or reception area. Specific delivery instructions will be noted on the order form or purchase order. Cases shall be of durable construction, good condition, properly labeled and suitable in every respect for storage and handling of contents. Each shipping carton shall be marked with the commodity, brand, quantity, item code number and the Purchasing Entity's Purchase Order number.

14. Laws and Regulations

Any and all products offered and furnished shall comply fully with all applicable federal and state laws and regulations.

15. Inspection and Acceptance.

a. Where the Master Agreement or an order does not otherwise specify a process for inspection and acceptance, this section governs. This section is not intended to limit rights and remedies under the applicable commercial code.

b. All products are subject to inspection at reasonable times and places before acceptance. Contractor shall provide right of access to the Lead State or to any other authorized agent or official of the Lead State or other participating or purchasing entity,
at reasonable times, in order to monitor and evaluate performance, compliance, and/or quality assurance requirements under this master agreement. Products that do not meet specifications may be rejected. RFP TITLE: Transcription Services RFP 170007304

AMENDMENT 2

IMPORTANT NOTE TO OFFERORS: Only the following items referenced in this amendment are to be changed. All other sections of the RFP remain the same.

NOTE: Any contradicting language between amendment 1 and amendment 2, amendment 2 will supersede. It is the proposer's responsibility to review and accept all amendments to this solicitation.

1. This amendment lists questions submitted by potential bidders as between February 25-March 1; and includes the states response to the questions.

   - Amendment to section 1.1: Section 1.1 has been removed and replaced in its entirety with this amendment.
   - Amendment to section 1.4 Additional Language added.
   - Amendment to section 4.1 Alter, remove and add additional language.

Amendment to section 1.1

The State of Alaska, Division of General Services (Lead State) is requesting proposals for Transcription Services in furtherance of the NASPO ValuePoint Cooperative Purchasing Program. The purpose of this solicitation is to establish master agreements with qualified Offerors to provide all transcription services for medical or legal/general records to convert speech; either live or recorded, into written or electronic text document for all Participating States. The objective of this solicitation is to obtain best value, and in some cases, achieve more favorable pricing, than is obtainable by an individual state or local government entity because of the collective volume of potential purchases by numerous state and local government entities. The master agreement(s) resulting from this procurement may be used by state governments (including departments, agencies, institutions), institutions of higher education, political subdivisions (i.e., colleges, school districts, counties, cities, etc.), the District of Columbia, territories of the United States, and other eligible entities subject to approval of the individual state procurement director and compliance with local statutory and regulatory provisions. The initial term of the Master Agreement will be two (2) years with three (3) one (1) year renewal options as outlined in Section 2 of the NASPO ValuePoint Master Agreement Terms and Conditions (Attachment A).
It is anticipated that this solicitation may result in Master Agreement awards to multiple Contractors, at the Lead State’s discretion.

This solicitation is designed to provide interested Offerors with sufficient information to submit proposals meeting minimum requirements, but is not intended to limit a proposal’s content or exclude any relevant or essential data. Offerors are encouraged to expand upon the specifications to add service and value consistent with state requirements.

This will be a new Master Agreement for the State of Alaska and NASPO ValuePoint.

While the primary purpose of this solicitation is to select Offerors, who can provide Medical, Legal, and General Transcription service for all members participating in the NASPO ValuePoint Cooperative Purchasing Program, Offerors are permitted to submit a proposal for limited services. Limited services shall be limited to either medical only or Legal/General only, all other services may be offered under Optional Transcription Services. In order to submit a proposal, Offeror must supply their proposed services in all of the 50 states, the District of Columbia and the territories of the United States to all state governments, (including departments, agencies, institutions), Institutions of higher education, political subdivisions (i.e., colleges, school districts, counties, cities etc.), the District of Columbia, territories of the United States, and other eligible entities. Offerors proposing on limited services, i.e. medical only or legal/general only, will not be allowed to add additional services following award or at any time during the term of the contract or any renewals.

The Lead State/sourcing team, with the assistance as deemed advisable of the relevant participating state (or relevant group of Participating States), may evaluate and select an Offeror for award in more limited geographical areas, (e.g. a single state) where judged to be in the best interest of the state or states involved.

Amendment to section 1.4

Subcontractor is any person or business entity employed to perform part of a contractual obligation under the control of the principal contractor. Any supplier, distributor, or firm that furnishes supplies or services to a prime contractor and another subcontractor.

Amendment to section 4.1

Minimum Experience: Offeror must have been in business for a minimum of three (3) years and performed services similar to the complexity of work listed in the scope of work, such as providing transcription services with complex medical terminology or legal and general on a regional or nationwide basis.
