

BIO

Michael Piccono

Name and Title:

Michael Piccono

Buyer

Educational background:

Montana State University

Bachelor's Degree in Business Management

Brief description of your experience:

I have over 12 years of experience as a purchasing and supply chain manager. I started my career in purchasing in the biotech industry and from there moved into the steel industry. I have found that through purchasing I have been able to apply my attention to detail and problem-solving skills to help my stakeholders and supply chain partners meet and exceed their expectations.

Areas of expertise:

Purchasing, Inventory Control, Logistics, Planning, Sourcing

Fun fact:

I like to travel. Once, with very little planning I packed up my car and went on a solo 6-week road trip across the country. I drove from coast to coast and back. I have been to all but 17 states and want to visit every one of them.
