**Amendment No. 4**  
**to**  
**Master Purchase Agreement (Agreement)**  
**Between the**  
**State of Idaho (State or Licensee)**  
**and**  
**Environmental Systems Research Institute, Inc. (ESRI)**  
**Agreement No. 2004MPA285**

State of Idaho Blanket Purchase Agreement SBPO1218-01 also known as Master Purchase Agreement (MPA) No. 2004MPA285, reconsolidated for February 1, 2010 to January 31, 2011 between the parties is hereby revised by this Amendment. The parties hereto desire to extend the term and update the pricing for Services, Software and Related Materials.

The terms and conditions of the above identified MPA remain unchanged except as revised and incorporated below:

1. Article 3, entitled TERM OF AGREEMENT is revised to extend the term of the Agreement for one (1) year. The new term shall expire on January 31, 2011.
2. Attachment A, entitled, ESRI MPA Price List - E416 is deleted and replaced with a revised version of Attachment A, entitled, ESRI MPA Price List - E417 10-09 attached hereto.
3. Attachment B, entitled, Exhibit 1, SCOPE OF USE, E300 5/08C is replaced with E300 10/09, to accommodate updated Software, Data, Web Services and Documentation attached hereto.
4. Attachment C-1, entitled, Time and Material Rate Schedule for calendar year 2009 is deleted and replaced with revised calendar year 2010 Time and Material Rate Schedule, page C-1 attached hereto.

All other terms and conditions remain unchanged.

IN WITNESS WHEREOF, the parties hereto have executed this Amendment No. 4 to be effective, valid, and binding as of the last date below by their duly authorized representatives.

## ATTACHMENT A

### ESRI MPA PRICE LIST (E417 10/09)

#### General Information and Disclaimers

1. The following Software items and related products are offered to Licensee and its qualified agencies for use only within the United States of America, its possessions, and territories.
2. The listed prices are exclusive of shipping, handling, and any applicable taxes. Delivery terms are FOB Redlands, California. Shipping and handling will be prepaid and charged back, i.e., included in the invoice as a separate item. If desired, shipping and handling charges can be quoted to the customer prior to the placement of the order. Your ESRI Sales Representative can provide a specific quote including applicable shipping and handling charges.
3. Eligible customers may at any time request a specific quote based on this contract from an ESRI sales representative. When selecting items from this contract without assistance from an ESRI sales representative, be aware of the following general rules:
  - (a) Volume pricing applies on a per-order and per-item basis unless otherwise indicated. The listed prices must be multiplied by the order quantity to determine the total price for any given order.
  - (b) Some products have prerequisites and interdependencies so that one may not be purchased, or may not be functional, without prior or simultaneous purchase of another product. For example, Software upgrades can only be licensed by customers who have already acquired the corresponding earlier version of the Software, and extension Software is only functional in combination with the corresponding core Software. If you have questions regarding your configuration, please contact your ESRI representative for additional information.
  - (c) System requirements and platform support vary from item to item. If in doubt whether your system will support a desired item, please contact your ESRI sales representative for additional information.
  - (d) Some items are not offered to all potential customers. For example, certain Software upgrades are only offered to customers who have acquired the most recent versions of the Software, and local government licenses are only offered to local government customers.
  - (e) Customer must provide adequate facilities for client site training. Certain other restrictions apply. See the Learning Center On-Site training information at ESRI's Web site ([www.esri.com/training/site\\_training.html](http://www.esri.com/training/site_training.html)) for details.
  - (f) ESRI Site Training (i.e., Training at one of ESRI's Training Centers) requires a completed registration application form from each student. Registrations are processed on a first-come, first-served basis. We recommend that you submit this registration information at least one month prior to the start date of your class. See the Learning Center registration information at ESRI's Web site ([www.esri.com/training/register.html](http://www.esri.com/training/register.html)) for details.
  - (g) Training will be provided in accordance with the policies defined under Education and Training at [www.esri.com](http://www.esri.com). Training prices are subject to annual escalation, not to exceed a seven and one-half percent (7.5%) increase in January of each year.
4. Support services are defined at ESRI's Web site ([www.esri.com](http://www.esri.com)) within the user support section. Particular attention should be paid to the fact that some ESRI Software comes with complimentary maintenance for the first year and other Software features different support plans.
5. New Software releases for most Software products are provided exclusively through maintenance programs. In these cases, Software upgrades are not sold separately.

## EXHIBIT 1 SCOPE OF USE (E300 10/09)

ESRI, 380 New York St., Redlands, CA 92373-8100 USA • TEL 909-793-2853 • FAX 909-793-5953

The scope of use for the ESRI Software, Data, Web Services, and Documentation identified below is described in the applicable footnotes identified in parentheses.

### Desktop GIS

- ArcReader (20 and 25)
- ArcView (1 or 2 and 25 and 44)
- ArcEditor (1 or 2 and 25, 26, and 44)
- ArcInfo (2, 25, 26, and 44)
- ArcGIS Desktop Extensions (7)
- ArcView 3.x and Extensions (1, 7, and 17)

### Server GIS

- ArcGIS Server and Extensions
  - Workgroup (either 3 or 5 and 8, 9, 25, 28, 29, 30, 32, 38, 39, 40, and 45)
  - Enterprise (either 3, 4, or 5 and 8, 9, 25, 27, 31, 38, 39, 40, and 45)
  - ArcGIS Server Geoportal Extension (either 4 or 5 and 7, 47, and 52)
- ArcIMS
  - ArcIMS and Extensions (either 3, 4, or 5 and 8, 10, and 31)
  - ArcIMS ArcMap Server (either 3, 4, or 5 and 31)
- Tracking Server (either 4 or 5 and 31)
- ArcGIS Server Image Extension (either 3, 4, or 5 and 8, 31, and 42)
  - ArcGIS Server Image Extension Service Editor (1)
- RouteMAP IMS (either 3, 4, or 5 and 8, 25, and 31)
- ESRI Business Analyst Server (5, 8, 9, 21, 25, 28, 31, 39, 40, 45, and 48)

### Mobile GIS

- ArcPad (1, 12, 13, and 25)
- ArcPad Application Builder (1 and 25)
- ArcGIS Mobile Deployments (1, 15, 16, and 25)

### Developer GIS

- ESRI Developer Network (EDN) Software, Web Services, and Data (6, 7, 24, 25, 26, 34, 35, and 36)
- ArcGIS Engine Developer Kit and Extensions (1 and 14, 15, 22, 25, 26, and 43)
- ArcGIS Engine Runtime and Extensions (1, 15, 22, 25, and 26)
- MapObjects—Windows Edition (1, 14, 15, 16, and 18)

- NetEngine Internet (5)
- ESRI Business Analyst Server Developer (6, 25, 35, and 51)

### GIS Viewers and Connectors

- MapIt (11, 25, 31, 35, 49, and 50)
- ArcExplorer—Java and Windows Editions (20 and 25)
- ArcGIS Explorer (20 and 25)
- ArcGIS for AutoCAD (1, 20, and 25)
- Geoportal Clients for ArcGIS (7, 20, and 52)

### Business GIS

- ESRI Business Analyst (1 or 2 and 25, 45, and 48)
- BusinessMAP (1 and 25)
- ArcLogistics (either 1 or 2 and 25)
- ArcLogistics Connect (6, 20, 25, 34, 35, and 46)
- ArcLogistics Server (5, 8, 9, 21, 25, 28, 39, 40, and 45)
- ArcLogistics Navigator (1, 25, and 46)
- ArcLogistics Navigator Deployments (1, 15, and 16)

### Cartographic Production

- Maplex (1)
- Production Line Tool Set (PLTS) for ArcGIS, GIS Data ReViewer, Map Production System—Atlas, Job Tracking for ArcGIS (JTX) (either 1 or 2), Job Tracking for ArcGIS Server (either 4 or 5 and 7)

### Web Services

- ArcGIS Online (6, 25, 33, 34, and 35)

### Data

- ESRI Data & Maps (either 1 or 5 and 23 and 37)
- ESRI Data (either 1, 2, or 5 and 25 and 48)
  - Demographic, Consumer Spending, Market Potential, Retail MarketPlace, Business, Traffic, Shopping Center, Cable Boundaries, Banking, and Crime
- Tapestry Segmentation (either 1, 2, or 5 and 21 and 48)
- Address Coder (either 1, 2, or 5 and 21, 22, 25, and 48)

- MapObjects—Java Edition (1, 5, 8, 15, 18, and 19)
- MapObjects LT (1, 14, and 16)
- NetEngine (1, 5, and 15)

- Sourcebook•America (1 and 21)
- ArcGIS Data Appliance (6, 23, 25, and 41)
- StreetMap Premium (either 1, 2, 4, or 5 and 6, 23, and 25)

1. "Single Use License." Licensee may permit a single authorized end user to install and use the Software, Data, and Documentation on a single computer for use by that end user on the computer on which the Software is installed. Remote access is not permitted. Licensee may permit the single authorized end user to make a second copy for end user's exclusive use on a portable computer as long as only one (1) copy of the Software, Data, and Documentation is in use at any one (1) time.
2. "Concurrent Use License." Licensee may install and use the Software, Data, and Documentation on computer(s) on a network, but the number of simultaneous users may not exceed the number of licenses acquired.
3. "Development Server License." Licensee may install and use the Software on a single computer to design and build applications that interface with or utilize server Software as described in the Documentation.
4. "Staging Server License." In addition to the Development Server License rights, Licensee may use and install the Software for the following purposes: user acceptance testing, performance testing, load testing of other third-party software, staging new commercial data updates, and training activities.
5. "Deployment Server License." In addition to the Staging Server License rights, Licensee may install and use the Software or Data to provide services to multiple users on the same or other computer(s).
6. Provided only as a Term License.
7. Extensions to Software programs follow the same scope of use as that granted for the corresponding Software programs.
8. The administration tools for the Software may be copied and redistributed throughout Licensee's organization.
9. User-developed ArcGIS Server administration tools may be copied throughout Licensee's organization, but the ArcCatalog application (found in ArcGIS Desktop) may not be copied.
10. The ArcIMS license includes the right to deploy MapObjects—Windows Edition applications on the Internet or intranet. Licensee shall not develop client/server solutions with the ArcIMS Java Archive (JAR) files without a license for the MapObjects—Java Edition Developer Kit.
11. Licensee may install and use the Software to provide services to multiple users on the same or other computer(s). The Software is licensed per server. The licensed server is the server on which Licensee installs the Spatial Data Service.
12. ArcPad SOFTWARE IS NOT LICENSED FOR NAVIGATIONAL USE.
13. "Dual Use License" means the Software may be installed on a desktop computer and used simultaneously with either a personal digital assistant (PDA) or handheld mobile computer as long as the Software is only used by a single individual at any one (1) time.
14. Developers must include the following attribution with any deployed MapObjects application: "Portions of this computer program are owned by LizardTech, Inc., and are Copyright © 1995–2002 LizardTech, Inc., and/or the University of California. All rights reserved. U.S. Patent No. 5,710,835."
15. Deployment licenses for desktop or Internet application(s) may be subject to payment of additional license fees.
16. Licensee may deliver applications to its sublicensee(s) provided Licensee uses a written sublicense agreement that protects ESRI's rights in its Software, Data, Web Services, and Documentation to the same extent as the ESRI License Agreement including, but not limited to, the following terms:
  - a. Sublicensee may not reverse engineer, decompile, or disassemble the ESRI Software, Data, Web Services, or Documentation, except to the extent permitted by applicable law; copy for commercial use; transfer; or assign its rights under the license grant;
  - b. Sublicensee may not use any ESRI Software, Data, Web Services, or Documentation, in whole or in part, separate from Licensee's executable application; and
  - c. Third-party dependent or required components are redistributable subject to permission from the owner or author.
17. Licensee may use Business Objects Crystal Reports software only with the ArcView 3.x Software with which it was acquired and subject to the Crystal Reports License Agreement available on the media. Licensee may not use a software program or system to cache or queue report requests.
18. The deployment license is per application per computer.
19. The MapObjects—Java Edition contains Java Archive files, which indicate they are authentic ESRI-certificated files when used over the Internet. Licensee shall not use ESRI certification or reference ESRI as a source of trusted content in any modified MapObjects Java Archive files. Licensee may deploy the unmodified Java class ESRI certified libraries as an integral part of the Licensee's application(s).

20. Licensee may reproduce and deploy the Software provided all the following occur: (a) The Software is reproduced and deployed in its entirety; (b) a license agreement accompanies each copy of the Software that protects the Software to the same extent as the ESRI License Agreement, and the recipient agrees to be bound by the terms and conditions of the license agreement; (c) all copyright and trademark attributions/notices are reproduced; and (d) there is no charge or fee attributable to the use of the Software.
21. Licensee shall not withhold any substantial right (e.g., extension of credit) from any individual based solely on the individual's place of residence, as profiled in the Tapestry Segmentation system.
22. (a) ArcGIS Engine Runtime licenses shall not be used for Internet and Server development and deployment. (b) An end user must license either ArcGIS Engine Runtime Software or other ArcGIS Desktop Software (ArcView, ArcEditor, or ArcInfo) to obtain the right to run an ArcGIS Engine application on one (1) computer. (c) The ArcGIS Engine Runtime extensions shall not be used in combination with ArcGIS Desktop Software to run ArcGIS Engine applications. A single user can have multiple applications installed on one (1) computer for use only by that end user.
23. Licensee may redistribute the Data as described in the Redistribution Rights Matrix available at <http://www.esri.com/legal/>, in the Help system, or in supporting metadata files, subject to the specific attribution descriptions and requirements for the dataset accessed.
24. EDN Software, Web Services, and Data may only be used by one (1) named developer per subscription solely for the purposes of research, development, testing, and demonstration of a prototype application. EDN Software and Data may be installed on multiple computers for use by any named EDN developer.
25. Use of included third-party owned data shall be subject to the Use of Data Restrictions found at <http://www.esri.com/legal/> for the specific Data accessed. The Use of Data Restrictions may be modified by ESRI from time to time. If a modification is unacceptable to Licensee, Licensee may cancel a subscription upon written notice to ESRI, or discontinue use of the Data or Web Services, as applicable. If Licensee continues to use the Data or Web Services, Licensee will be deemed to have accepted the modification.
26. An ArcSDE Personal Edition geodatabase is restricted to four (4) gigabytes of Licensee data.
27. ArcGIS Server Web ADF Runtime Software may not be deployed independently of Licensee's ArcGIS Server Enterprise configuration.
28. Limited to ten (10) concurrent end users of applications other than ArcGIS Server. This restriction includes use of ArcGIS Desktop products, ArcGIS Engine products, and third-party applications that connect directly to any ArcGIS Server geodatabase. There are no limitations on the number of connections from Web applications.
29. Can only be used with SQL Server 2005/2008 Express.
30. Restricted to a maximum total of four (4) gigabytes of Licensee data.
31. Redundant Software installation(s) for failover operations may be implemented during the period the primary site is nonoperational. The redundant Software installation(s) shall remain dormant, except for system maintenance and updating of databases, while the primary site or any other redundant site is operational.
32. No redundant Software installation is permitted.
33. a. ArcGIS Online may only be utilized in conjunction with the following Software:
  - i. ArcGIS Desktop
  - ii. ArcGIS Server (including the Web ADF)
  - iii. ArcGIS Mobile
  - iv. ArcGIS Explorer
  - v. ESRI Business Analyst Server Developer
  - vi. MapIt
  - vii. The ArcGIS APIs (including JavaScript™, Adobe® Flex®, and Microsoft® Silverlight™/WPF™)
  - viii. ArcLogistics Connect
- b. Licensee's access and use of ArcGIS Online Standard Services shall be subject to Licensee's consent to the terms and conditions of ESRI Web Site and Service Terms of Use Agreement (G-577) found at <http://www.esri.com/legal/>.
- c. ArcGIS Desktop Licensees that are current on maintenance may access and use Microsoft® Bing Maps™ subject to Licensee's consent to the terms and conditions of Bing Maps for ArcGIS Desktop Users Services Agreement (G-600) found at <http://www.esri.com/legal/>.
34. Licensee's organization is limited to the number of specified credits, transactions, geography, or number of users as described in the online product description.
35. Licensed end users shall not share the client-side data cache derived from ArcGIS Online with other licensed end users or third parties.

36. Licensee may not download or store resulting data or information except for results derived from using ArcWeb Services Address Manager.
37. Data provided with StreetMap USA may be used for mapping, geocoding, and routing purposes but is not licensed for dynamic routing purposes. For instance, StreetMap USA may not be used to alert a user about upcoming maneuvers (such as warning of an upcoming turn) or calculating an alternate route if a turn is missed.
38. The ArcGIS Server 3D extension included with ArcGIS Server Standard (Workgroup or Enterprise) may only be used for generating globe data cache(s) or publishing a globe document as an ArcGIS Globe Service. No other use of the ArcGIS Server 3D extension Software is permitted with ArcGIS Server Standard.
39. Any editing functionality included with ArcGIS Server is not permitted for use with ArcGIS Server Basic (Workgroup or Enterprise).
40. Geospatial Enterprise JavaBeans (EJB) provided with ArcGIS Server (Workgroup or Enterprise) are permitted for use only with ArcGIS Server Advanced.
41. Licensee may only use Data from a single state with the Single State version of ArcGIS Data Appliance. This restriction applies to a large-scale (i.e., scale levels below 1:100,000) street map, transportation layer, boundaries and places layer, and one (1)-meter or better resolution imagery included in the USA Collection. This restriction does not apply to the small-scale (i.e., scale levels above 1:100,000) maps provided in the World Collection, which are intended for display at global and regional scales.
42. Licensee has the right to one (1) desktop deployment of the ArcGIS Server Image extension Service Editor for every four (4) cores of ArcGIS Server Image extension that is licensed. Additional Service Editor desktop deployments can be licensed for an additional fee.
43. Licensee may develop an unlimited number of applications on a single computer and deliver the applications to end users with or without the Engine Runtime Software.
44. For any operating system environment in which Licensee runs instances of the Concurrent Use license management software, Licensee may run up to the same number of passive failover instances of the Concurrent Use license management software in a separate operating system environment for temporary failover support.
45. Data licensed with ESRI Business Analyst and ESRI Business Analyst Server are restricted to use with the respective Business Analyst extension and are not for general use with ArcGIS Desktop or ArcGIS Server Software.
46. Licensee should not follow any route suggestions that appear to be hazardous, unsafe, or illegal. Licensee assumes all risk of using this navigation Software.
47. Licensee may only use the Software in conjunction with a minimum of ArcGIS Server Standard.
48. Licensee may include reports and maps created from the Software or Data in hard-copy or read-only formats for presentation packages or marketing studies for subsidiaries and customers. The total content of the ESRI reports and maps must be less than twenty percent (20%) of Licensee's total content of the presentation package or marketing study. Full, complete, stand-alone reports or maps created from the Software or Data and not part of a presentation package or marketing study cannot be resold, sublicensed, or otherwise transferred without prior, written permission of ESRI. Licensee's third-party customer may only receive reports and maps generated by Licensee and may only use the maps and reports received from Licensee for internal purposes. In no case shall Licensee redistribute the Data in digital formats.
49. ESRI MapIt Silverlight Web or WPF applications may not be deployed independent of Licensee's MapIt deployment configuration.
50. Licensee has the right to one (1) desktop deployment of the Spatial Data Assistant for each ESRI MapIt Server License.
51. ESRI Business Analyst Server Developer and Data may only be installed on one (1) server per license solely for the purposes of research, development, testing, and demonstration of a prototype application.
52. Source code is the intellectual property of ESRI. Licensee's access to and use of any source code file identified as "Software" in a README file or at <http://www.esri.com/legal/> should be treated as a trade secret for Licensee's own internal use only and not for further redistribution or access by unlicensed third parties. Licensee shall not modify the Software, Documentation, Data, or source code to incorporate, embed, link, or otherwise include any code, libraries, or data licensed or distributed under an open source licensing or distribution models similar to Free Software Foundation's GNU's General Public License (GPL) or GPL-compliant licenses, including, without limitation, the Artistic License (e.g., Perl), the Mozilla Public License, the Netscape Public License, and the Sun Community or Industry Standards License, that could require a user to make its proprietary source code available to a requesting third party.

**ATTACHMENT C-1**  
**TIME AND MATERIALS RATE SCHEDULE**  
**CALENDAR YEAR 2010**

*Effective January 1, 2010*

Hourly time and materials labor rates have been provided for each labor category for calendar year 2010. The hourly labor rates for services that are performed after 2010 may be escalated in an amount not to exceed five percent (5%) each year. Other direct costs, such as travel, reproduction, subcontractor, telecommunication/freight, or materials, will be charged a material handling fee and invoiced.

**Principal GIS Consultant/Program Manager (M3)**

**Hourly Rate: \$359/Hour**

Staff members in this labor category work as program directors or project advisers, providing project vision, strategic consulting, and program management activities for geographic information system (GIS) and information technology (IT) projects. These staff members apply market/application domain expertise using extensive experience in GIS and related geospatial technologies to support the successful completion of the program. Consulting activities may include strategic planning, review and oversight of requirements definitions, application and database design, and system integration consulting. Management activities may include defining program requirements and objectives, establishing budgets and schedules, allocating staff and other resources, and managing and overseeing subcontractor activities. Staff members in this labor category work with senior client staff in coordination with ESRI senior management to resolve issues and support successful project completion.

**Senior GIS Consultant/Project Manager (M2)**

**Hourly Rate: \$272/Hour**

Staff members in this labor category work as project managers or project advisers, providing strategic consulting and project management activities for GIS and IT projects. These staff members have market/application domain expertise using extensive experience in GIS and related geospatial technologies to support the successful completion of a project. Consulting activities may include strategic planning, GIS workshops and seminars, requirements definition, application and database design, and system integration consulting. Management activities may include defining project requirements and objectives, establishing budgets and schedules, allocating staff and other resources, and managing and overseeing subcontractor activities. These individuals may also design comprehensive work plans that employ standard system methodologies that define project deliverables and milestones and realistic schedules.

**GIS Consultant/Project Manager (M1)**

**Hourly Rate: \$216/Hour**

Staff members in this labor category provide day-to-day consulting and management for contracted projects within ESRI. These individuals work under the guidance of senior ESRI managers described above and support the design and implementation of project work plans. These staff members may provide consulting services and design and management support to software application development projects and database conversion projects. They may also conduct detailed requirements interviews, document application requirements, develop logical and physical database designs using standard engineering diagramming methodologies, design software and database QA/QC programs, and provide management oversight of daily technical activities. These staff members work with senior consulting and technical staff to design comprehensive work plans that employ standard system methodologies that define project deliverables and milestones and realistic schedules. These individuals work with ESRI administrative staff to ensure that progress and financial reporting are provided according to contract requirements.

**Senior GIS System/Software Architect (S3)****Hourly Rate: \$280/Hour**

Staff members in this labor category provide the overall technical vision and system architecture for large, complex systems. They support the application of sound software engineering principles and life-cycle methodologies to programs/projects. These individuals are actively involved in systems architecture design, application software design, database process design, and the directing of coding development including the supervision of design and code reviews. These staff members may serve as principal investigators in focused studies or research and development projects. Individuals in this labor category have broad technical knowledge of GIS applications and related information technologies, and they may also provide specific expertise in areas such as Web-based software applications, service-oriented architectures, data warehousing, spatial analysis, and modeling. As a group, these staff members are proficient with ESRI commercial off-the-shelf (COTS) software products; software and database design methodologies; Web, desktop, and server software development languages; geospatial data formats; and other technologies.

**GIS System/Software Developer (S2)****Hourly Rate: \$228/Hour**

Staff members in this labor category support the design of technical project specifications for the implementation of application software projects and database development projects. They support the day-to-day technical activities of the project team and ensure that standard system methodologies are employed. They also perform detailed software design and detailed database conversion design and are directly involved in the coding and implementation of complex and strategic portions of application software and database conversion projects. As a group, these staff members are proficient in ESRI commercial off-the-shelf (COTS) software products; Web, desktop, and server software development languages; geospatial data formats; and other technologies. These staff members design and develop QA/QC programs and support design and code reviews, database reviews, and other QA/QC activities throughout the project life cycle.

**GIS Technical Specialist/Engineer (S1)****Hourly Rate: \$176/Hour**

Staff members in this labor category work collaboratively with software designers to perform software coding and the writing of software documentation according to design specifications developed by senior technical staff described above. As a group, these staff members are experienced in the coding of software and the creation of digital databases, as well as in software development associated with ESRI's commercial off-the-shelf (COTS) software products; Web, desktop, or server software development languages; geospatial data formats; and other technologies. These individuals also develop effective database designs, implement data conversion processes and procedures, and perform software and database quality control.

**GIS Database Specialist/Analyst (DB)****Hourly Rate: \$149/Hour**

Staff members in this labor category provide database development support in creating cartographic and digital data products. These staff members have expertise that includes the performance of hard copy to digital data conversion tasks, data migration, and translation activities utilizing advanced processing techniques in ArcGIS. These individuals design, develop, and implement efficient production tools and workflows in accordance with approved project plans and design parameters.
